# The Linux Users Group

Leadership Opportunities:
We are in search of members with strong leadership skills and technical expertise to help lead our organization! If you have these qualities, please first join the organization on OrgSync and then email either Reid Nabinger or Daniel Van Allen.

Technical Assistance:
If you need help installing Linux on your computer, feel free to let us know! We generally have one or two Installfests each year where we bring together a larger number of Linux users and help set up new systems.

Interested in using or developing Linux, Solaris, Unix, BSD, or any other free or open-source software?

Find us on OrgSync and apply to be a member today!

- Membership is free, and allows you to network with Linux professionals and UTD alumni in the IT community.

- We are happy to provide assistance with your Linux or open source software questions, get on IRC and join the conversation!

Find us on IRC at: irc.oftc.net   #UTDLUG

Reid Nabinger, President:
reid.nabinger@utdallas.edu

Daniel Van Allen, Vice President:
daniel.vanallen@utdallas.edu
